

TeamSite Properties File Updates

All the relevant properties files for Mobile Check in, Mobile View Your Booking and the Mobile Home Page are managed in TeamSite.

As a pre-requisite, you will require login privileges to access TeamSite.

To start, go to <http://syducms03> in a **Microsoft Internet Explorer browser**. TeamSite will not work on any other browser.

Once logged in, navigate to **I18N -> dev -> Workareas** as shown:

Click on **“work”**.

After clicking on “work”, click on “templatedata” shown below:

Next, click on “ResourceBundles” as shown below:

The screenshot shows a web-based file explorer interface. The address bar displays the path: `///au04uap103qans2/default/main/I18N/dev/WORKAREA/work/templatedata/resources`. Below the address bar, the title is "All Files: resources". There are buttons for "New Folder" and "Properties". The main area contains a table with columns: "Name", "Modified By", "Modified", and "Properties". The "ResourceBundles" folder is selected, indicated by a checkmark in the "Name" column.

Name	Modified By	Modified	Properties
☐ AirportList	616/S/*AUS04//Super-User	Jan 27, 2010 7:43:03 PM	Properties
☐ HomeContentPanel	616/S/*AUS04//Super-User	Nov 24, 2009 1:47:45 PM	Properties
